●滾筒刷的最佳使用方法（Roller Usage）
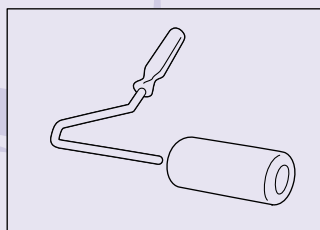

①先用手掃一下滾筒刷表面, 除掉滾筒刷上的"浮毛", 然後套上滾動架。

Attach roller refill to the roller frame tightly after removing extra hair from the roller refill.
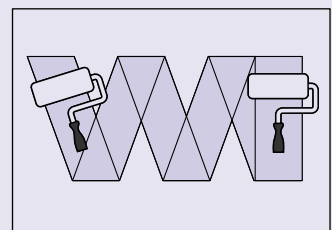

②用將要使用的塗料的稀料浸泡, 然後在網板上滾幾下, 使滾筒刷適應該稀料。

Soak the roller refill in the thinner applicable to the paint, then roll over the roller on the roller net to get attached with the liquid.
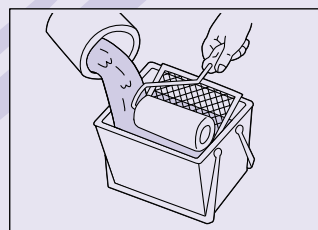

③將塗料注入滾筒刷用方桶, 讓滾筒刷浸泡後, 在網板上滾幾下, 以使滾筒刷上的塗料均勻。

Fill the paint in the roller bucket. Soak the roller refill into the paint, then roll over the refill on the roller net a few times.

④先如畫大的W字那樣, 將塗料塗上後, 再從上到下, 由左到右的順序塗刷, 使被塗面的塗料均勻。

Move the roller as if drawing a big "W", then shift in the order: up, down, left, and right to apply paints thoroughly.
